Albany C. of C. Will Mail Out Questionnaire

"Let's Look at Albany Stores," says the Albany Chamber of Commerce in a query to be distributed next week to all residences in Albany and to those in Berkeley, El Cerrito, and to Fairmount in El Cerrito.

The Chamber of Commerce is distributing with its compliments a map of Albany. Enclosed with each map is a questionnaire and a return envelope, postage free. Housewives are requested to fill in their answers to 14 questions in which their opinion of Albany's shopping facilities is sought. Signatures to the questionnaire are not requested.

The questions include such points as completeness of stocks, adequacy of advertising, methods of merchandising, convenience in parking, comparison of Albany stores with those in surrounding areas, service to shoppers and convenience store hours.

"We are asking shoppers to tell us frankly how Albany stores rate in service to the public," said Cecil Wentz, president of the Albany Chamber of Commerce. "It will be a great help to us in planning our merchandising program. Albany (Continued on Page 4)

Many friends and relations were at the San Francisco airport on May 9 to see Jeff Eichner, Sr., off on a long awaited trip to Europe.

He plans to spend 3 weeks with his brother and sisters in Denmark, whom he hasn't seen in 48 years. Many gatherings and parties have been planned in his honor to reacquaint him again with his relations and friends of long ago.

In addition, Mr. Eichner plans to visit with his son, Jeff Eichner, Jr. now serving with the armed forces in Germany.

Accompanying Mr. Eichner on his European jaunt is his daughter and son-in-law (Marie and Ralph Johnson) and Mr. Johnson's father and step mother.

The only feature to mar the joy of this long awaited trip is the fact that Mrs. Eichner, who has been in ill health for the past year, didn't feel up to making the trip.

COUNCIL CALLS HEARING ON CONTINUANCE OF PLAN FOR ONE-WAY STREETS

The Albany City Council on Monday night ordered a public hearing for its regular weekly meeting on May 27, to discuss the question of whether or not to make permanent the designation of Adams and Kains Avenues as one-way, northbound streets. The hearing will precede the council meeting and will start at 7 p.m.

In a brief discussion the members learned that comment had been both favorable and unfavorable, with the majority well satisfied with the way the plan is working. The 90-day period of trial under which it was adopted, is soon to expire.

A motion to ask the senior Chamber of Commerce to make an investigation and report to the council within the next four weeks the status of plans announced months ago by two corporations for hotel buildings on the Albany Hill was adopted unanimously. One plan called for a \$3,000,000 hotel on the east side near the summit, while the other called for construction of a garden motel and apartment houses on the west slope, upward from the freeway.

In both cases the council had zoned the properties from residential to "hotel zone" on the representations of the promoters. So far there has been no visible progress.

A proposal by Councilman Jerome Blank that City Treasurer Robert G. Olson be named "Administrative Assistant", in addition to his present duties, and be given an additional \$150 per month, bringing his salary up to the level of other city executives, was passed 4 to 1, Mrs. Zahn opposing. The city attorney was instructed to draw up the necessary resolution for consideration at next Monday's meeting.

The request of Mrs. Y. J. Minassian, 923 Key Route Boulevard, that her property at that address be rezoned from first to second residential, on appeal from the Planning and Zoning Commission, was considered and date for a public hearing set for June 3.

A revision of the building code for building permits to be required for building new front yard fences, each permit to cost 50 cents, was approved.

The council instructed the city attorney to prepare an emergency ordinance under which the poundmaster would be authorized to seize packs of two or more dogs when running at large and endangering human beings, or creating a public nuisance.

On recommendation of the Traffic and Safety Commission the council approved the placing of stop signs on Francis Street, on either side of Nelson. It also approved a 40-foot passenger loading zone on the north side of Portland Avenue, and west of Pomona, adjacent to the Albany High School pool.

Resolution No. 57-65, authorizing purchase of property at 808 Kains Avenue, another unit, in the move for a new building for the fire and police departments, was approved 4 to 1, Mrs. Zahn voting "No."

The Women's Society of the Albany Community Church is sponsoring a combined Brunch and Food Sale, Friday, May 24 — 10 a.m. to 3 p.m.

Brunch will consist of juice, coffee and sweet roll for 35 cents. On sale will be homemade cakes, pies, salads, cookies, hot breads, jam, jellies and candy — donated by the ladies of the church.

Administrative Assistant for City Proposed

In a move which he declared would tend to streamline the city's administrative activities and relieve the mayor and councilmen of many of their many obligations in attending hearings, committee meetings, etc., Councilman Jerome Blank on Monday night proposed the council appoint City Treasurer Robert G. Olson as "Administrative Assistant", in addition to his present duties.

After reading a detailed statement explaining the proposed plan, Blank moved to have the city attorney draw up a resolution covering such an appointment. Seconded by Councilman Leonard L. Keck, the motion passed 4 to 1, with Councilwoman Zahn dissenting. A second motion calling for an increase in Olson's salary of \$150 a month to bring it up to the level of that paid other department heads, was also passed.

Councilman Blank's statement on his proposal was as follows: "I would like to introduce a matter which I believe concerns the efficient operation of our city, and which is important if we are going to have a continued orderly development of Albany.

"In this modern age, no city or business can use outdated methods of management if it is to operate successfully. The science of city administration in California has grown by leaps and bounds, and has been recognized by practically every other city in this area. I believe that it is time that the city of Albany recognized the fact that an administrative assistant is needed to coordinate the administrative end of city government.

"One of our present problems is that there is presently no one person in the city of Albany that can give administrative decisions for the city. Thus, a department head with an urgent problem of an administrative nature, must wait until he can meet with all five members of the council in a regular council meeting to solve a problem. There is no one person in the city hall who can handle all the day to day detail that a modern city must resolve. I do not propose that the city council give up any basic authority, nor will this plan take away any authority from the citizens of this community. What I am suggesting is that the council delegate certain administrative and routine authority to an Administrative Assistant." (Continued on Page 5)

Most valuable player offers valuable advice about Savings Bonds!

Mickey Mantle's big bat won him the American League's Triple Batting Crown last year and unanimous choice by the nation's sports writers as his league's most valuable player. This young Oklahoman figures to have many more great years in the majors, but already he's looking beyond his playing days, planning for his family's future with regular savings.

Mickey says, "From personal experience, I know that the guy who comes through regularly means the most to himself and his team. I've learned the same lesson about savings. Buying U. S. Bonds regularly helps win the game of security.

"Millions of sports fans can be star players in the game of security by joining and staying on Payroll Savings where they work."

Good advice for the long haul from a long ball hitter.

For most of us, Payroll Savings offer the easiest, surest way to save. And the time to start is now. All you do is sign the application form in the payroll office where you work. Select the amount to be set aside for your Bonds each pay-day. Then your saving is done for you. And each time you've accumulated enough, a Bond is purchased in your name.

You keep adding to your Bonds through Payroll Savings and your Bonds keep earning interest for you. It's a sure way to make a little deduction add up to a lot of security.

So don't put off saving another day. Sign up for Payroll Savings where you work—today. Or start buying Bonds regularly where you bank.

Part of Every American's Savings Belongs in U. S. Savings Bonds.

AN END PLAY—COLLEGE STYLE

Under terms of a recent bequest, Notre Dame University, whose name for years has been practically synonymous with football, may soon become famous in an entirely different field of intercollegiate activity — Bridge playing!

Yes, that's correct — Contract Bridge. A Michigan industrialist, James Gerity, Jr., who also owns several radio and television stations in the midwest, recently bequeathed \$5,000 to the famous Indiana university to encourage student participation in Bridge and golf.

Actually, competition in intercollegiate Bridge and golf is not new to the university whose name is popularly associated with the gridiron. Few people are aware that Notre Dame is one of the first universities to have developed intramural sports to the fullest. One of the largest boarding schools in the world, it has 15 residence halls on its 117-acre campus, each boasting its own athletic teams and clubs. Interhall competition in Bridge and golf at Notre Dame is sometimes as fierce as in football.

For many years, Notre Dame, along with nearly 175 colleges and universities throughout the country, has competed in the National Intercollegiate Bridge Tournament. Two years ago its team took third place. On that team was Oswald Jacoby, Jr., son of the famous Bridge expert. His brother John is now a freshman at Notre Dame.

Notre Dame's Bridge benefactor maintains, however, that his gift is not aimed at heightening intercollegiate competition at the university. He wants to reach the students who would not ordinarily play. "As life goes on," according to Gerity, "there are only three things you can do in sports—golf, Bridge and swimming. Not all boys are fitted for strenuous athletics and they ought to find some other means of recreation. Besides, it can be a big help later on in the business world to know how to play Bridge and golf. I made this donation just to keep the ball rolling."

Under the guidance of Latin professor John Turley, Notre Dame has already launched the program with lectures for students and guests by card experts Charles Goren and Oswald Jacoby. Another faculty enthusiast is Notre Dame's youthful football coach, Terry Brennan, who is an expert Bridge player and participates in many student-faculty contests. Future plans call for more Bridge clinics and interhall and intercollegiate tournaments with silver cups and plaques as prizes.

WEAR WHITE AFTER DARK.

WINNER 12TH NATIONAL TRAFFIC
SAFETY POSTER CONTEST

The importance of dressing so you can be seen by motorists in the dark may save your life, says the California State Automobile Association. More than half of all pedestrians killed in traffic are struck at night. Many people do not realize how difficult it is for drivers to see pedestrians in dark clothing. If everyone who has to walk along highways and cross poorly lighted streets at night would wear something white or light-colored, the hazards of darkness would be greatly reduced. If you don't happen to be wearing something white, then carry a newspaper or other white or shiny object. Your life as a pedestrian will be safer.

Rock Collecting Popular Hobby In California

If you happen to be out motoring in the country one day, see some men, women, and children with dusty slacks and shirts, cloth bags slung over their shoulders, and little combination hammer-picks in hand, you've probably spotted some rockhounds.

Rockhounds, according to the National Automobile Club, are an interesting outdoor breed, stirred to their activity by a variety of motivations. Some are after rocks because it gives them a good excuse to get out in the country. Some are after rocks because they want them to

build or decorate a patio, walk, or fish pool. Others are out there because they like to collect things, and many a rock stripped of its dust and its outer crust can be a "thing of beauty and a joy forever."

This matter of collecting the rocks that can be turned into something of beauty is a real hobby, too. Such collectors keep a sharp eye out for items like jade, jasper, quartz and agate. These they can spot from quite a distance, and once they have popped them into the bag and taken them home, they really go to work on them. They clean them, they facet them, they trim them to just the shape they want. They polish them to a high, high gloss, bring out all the warm, strong beauty of the bright colored veins. And then they make mounts for them from silver or some other metal and use them to decorate a necklace or a ring.

OUR TOWN IS STRONGER ECONOMICALLY BECAUSE OF U.S. SAVINGS BONDS

40,000,000 Americans own more than \$41,000,000,000 of cash savings—in U. S. Savings Bonds! They're one of the world's safest, surest investments. Your Government guarantees the principal of U. S. Series E Savings Bonds—up to any amount—and the rate of interest you receive.

Payroll Savings is the easiest way to save!

One of the reasons so many people are reaching their savings goals with Bonds is the Payroll Savings Plan. It's a sure-fire way to steady savings because the money is saved for you—automatically.

You just sign the authorization card in the payroll department where you work. Sign up for any amount you wish—a couple of dollars a payday or as much as you can spare. And when enough has accumulated, it's automatically invested in a Series E Savings Bond in your name and the Bond is turned over to you.

Then your savings really go to work—building up a backlog of security for you and your family. And adding to the economic well-being of our town and our country! If you haven't already signed up for the Payroll Savings Plan, why not do it today?

Take a look around our town! Don't you see all the signs of a strong economy? How about that mechanic down the street who just opened his own garage, the neighbor who's sending his son through medical school? How about all those homes that are being started and those bright new cars that are parked in front of our town's bustling stores? Things look pretty healthy, don't they?

Do you ever stop to wonder how much of this prosperity was made possible by U. S. Savings Bonds? Not just because they helped our country through an emergency either. Although that's part of it.

An even more encouraging fact is that all over America more people are saving more money, purposefully, than ever before in the history of the world. Today, more than

Councilman Blank Proposes Albany Appoint Administrative Assistant

(Continued from page one)

Assistant who will work directly under the council, and who will be responsible to and take direction from the city council. This will leave the city councilmen free from administrative routine, which is certainly not what a councilman should be concerned with. A councilman's main job is in setting policy, and enacting legislation, and planning for the overall government of the city. The routine day to day administrative details are best left to a paid full-time administrative person.

"I can give a parallel to our present situation. Can you imagine a major business operating today without a general manager or superintendent who has authority to make certain decisions? Certainly a business could not operate in this way efficiently, if every decision of the day had to be submitted to the board of directors of the corporation. Yet, frankly, this is the horse and buggy system under which our city operates.

"The neighboring cities of El Cerrito, Berkeley, Richmond and Oakland all have some sort of centralized administration, under the control of the city council. Many cities smaller than Albany have administrators, for instance Piedmont, in this area.

"What I propose however, is not a city manager, nor even a person with the authority of a chief administrative officer. I merely propose an administrative assistant who can help us coordinate our city business affairs, with no power to hire or dismiss.

"Here are some of the proposed duties of an administrative assistant:

"1—Prepare the budget (after this year), and install a system of budgetary control, so that we will know the over-all picture at all times on the budget rather than holding just two budget hearings a year. After all, critical changes can take place in the budget in a very short time, and we should have a running control of our expenditures, which is impossible under the present set-up.

"2—Be a liaison man for the council — immediately investigate any citizen complaints, thereby giving better service to our citizens, make reports to the council, and recommendations for correction.

"3—Public relations. He can keep the citizens informed of important developments. Put out yearly taxpayers report, as do all the surrounding cities. Write articles explaining various features of city government for submission to the newspapers.

"4—Attend the multitude of meetings which are held for study of many important matters, such

as Rapid Transit, Smog Control, Waterfront Development, Bay Area Council, Highway Hearings, etc. I have personally attended meetings of this type where I was the only official present who was taking time off from his own business, whereas all other cities present were represented by their full-time paid representatives. This will take a tremendous load off our mayor.

"6—Preside at department head meetings where common problems can be discussed, equipment can be pooled, work can be more efficiently planned. The city council has only had one department head meeting in the last year, as it is hard to get everyone together, when actually the administrative assistant could hold meetings once a week, or twice a month. Work could be coordinated better in this manner.

"Ordinarily most cities must go out and hire an administrator and pay a full salary for this official. What I propose is I believe a wonderful solution to the question of how to find a capable man, and how the city can afford him. I propose to appoint our present city treasurer, Robert Olson to be administrative assistant, coinciding with his present duties as city treasurer. I propose an increase in salary of \$150 per month, bringing

his salary up to the same level as all the other department heads, namely \$700 per month.

"In appointing Bob Olson we are appointing a man who has shown in the past year that he thoroughly understands city government and is capable of performing the duties he is assigned to. He has made many improvements in his present department by using time-saving methods, and he is also presently doing a good job as purchasing agent, an extra job which he cheerfully accepted without any previous raise. Also Bob Olson has the confidence of the people of Albany as can be seen by the large vote he received as treasurer. With his background as a certified public accountant I feel he can successfully carry out the duties of administrative assistant to the council.

"In conclusion may I say that we have the finest department heads in Albany of any city in this state. The appointment of an administrative assistant in no way reflects on their present fine work. The new position will, as a matter of fact, help the department heads as they will at all times have access to an official who can give them immediate decisions on their budget and on day-to-day routine.

"Their work will be made easier, and I believe that they will appreciate having regular department head meetings. This position will

Democratic Club Plans Party May 25

The Albany Democratic Club will celebrate Democratic Party Night Saturday, May 25, with a party complete with prizes, refreshments and games at the home of Mr. and Mrs. Robert Smith, president of the club, at 1779 Tacoma Ave., Berkeley.

Phyllis Jamieson and Mrs. Smith are in charge of the arrangements for the Albany Club party which is expected to last from 6 p.m. to midnight. Prominent Democrats from both Albany and Berkeley are expected to attend.

In no way relieve the city council of final responsibility for every action taken in this city, and in the final analysis, the council will continue to be responsible to the people of the City of Albany. This move can be made without any tax increase, and I fully expect this new appointment to save the city money by coordinating the routine affairs of the city. The council reduced the tax rate last year by six cents, and it is our thinking that economy will continue to be the watchword in city government.

"I therefore move that the city attorney prepare a resolution outlining the duties of administrative assistant and appointing Robert Olson to this position."

Give them a Faith to live by

Worship with them this week

Naturally you want them to have all the good things in life... a happy home... a good education... plenty of chances to meet other nice young people. But be sure to give them the most precious gift of all... Faith.

The wonderful part is that faith is yours to give... no matter who you are, what you do for a living, how much money you have in the bank.

Faith is the gift you give a little at a time. Every week you worship with the children at your church or synagogue. The youngsters see you... the biggest, smartest, most important people in their world... asking God for help, thanking Him for blessings. Then it's clear to them... here they can always find the strength they need, always find the happiness they want.

Then you've done the best a parent—any parent—can do.

WHAT'S DOING

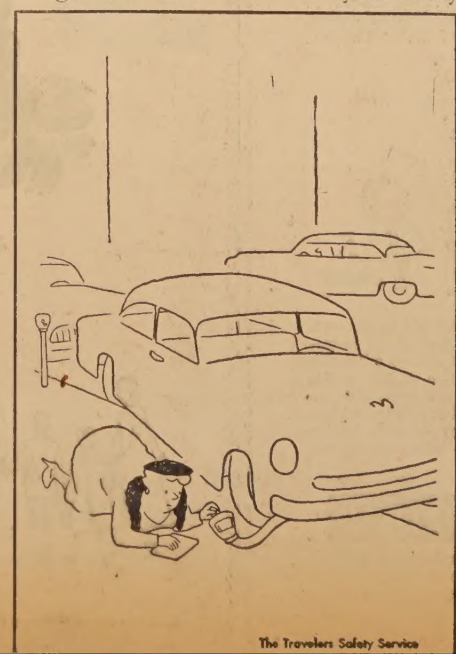

Guarding the safety of you and your family is a big job of any telephone man's job. That's why we each take course in "defensive driving." It teaches us ways to avoid accidents—to anticipate what other drivers or pedestrians may do. It really works too. Our drivers cover millions of miles every year and chalk up one of the best safety records in the U.S. It pays off for us and our families, and you too, for it helps make driving safer for everyone.

A reserve of power for your phone service—day and night. Heavy storms and other emergencies don't come often. But we keep anyway. Special generators run by gas or diesel engines have provided in each telephone central office. If they can take over the necessary power, one of the many ways work to provide telephone service you can count on.

Happy Birthday to Us
This display in the window of Hazlett's Store presents old and new in telephone equipment. Seventy-five years ago the Berkeley exchange was born. One of the first homes was what is now Hazlett's. Telephone service started with 91 telephones in the entire East Bay, today Berkeley itself has over 47,500. This will give you an idea of how we have grown in seventy-five years.

Show them the Way...this week

A child's trust is a precious thing.
Instinctively your little ones rely upon your example...
so the pattern you set becomes their pattern, too.
By taking them to worship with you every week
they will come to know God...to be at ease with Him
...to feel the strength and warmth of His love.
And you will be building the foundation for a richer
and happier life for your whole family.

Give them a Faith to live by...Worship with them this week
